

Do the Work: 2016 Donations Report

2016 has been a both a bountiful and complicated year. Pride & Joy is committed to sharing our great fortune and acting in solidarity with our community and those who need our support. The health and well-being of the planet and its inhabitants rests in our willingness to show up and to act; to do the difficult work of sacrificing our comforts (be they political, financial or social) in order to preserve the natural world and to demand social justice throughout society.

In a grand gesture of giving this year **Pride & Joy has donated 20% of our earnings** to the following organizations.
